

PRODUCT DESCRIPTION

- FINEPIK® is a brand name for hypodermic needle.
- It is designed exclusively as a tool for intravenous and hypodermic injection of solutions into the human body.
- The needle consisting of a hub, tube and cap.
- FINEPIK® components had been tested for non-toxic, free from pyrogen, and of no hemolytic.
- Needle cap and hub is made from high clarity Polypropylene.
- Needle hub is color coded according to ISO 6009 for standard identification.
- The cannula of the needle is exceptionally sharp and free from feather edges, burrs and hooks to minimizes tissue pressure during insertion into the body.
- It is in its primary packaging which sterile-packed individually using Ethylene Oxide (EO) gas according to ISO 11135.
- The products are packaged with blister packs with a definitive usage life-span marked on the packs.
- Blister packs provide a protective barrier that helps safeguard products from external factors.
- The female connector (hub) of the needle are designed to mate with male connector of syringe or infusion (blood) device, which can be used in human skin, subcutaneous, muscle, intravenous or extract. The needle will be pushed firmly into the syringe and secure with a clockwise twist.
- FINEPIK® available at different sizes to help medical professionals choose the suitable gauge.
- Registered with Medical Device Authority of Malaysia under Act 737.
